## INTRO

The International Arab Conference on Information Technology (ACIT'2023) is a forum for scientists, engineers, and practitioners to present their latest research, results, ideas, developments, and applications in all areas of information technology. ACIT'2023 will include presentations to contributed papers and state-of-the-art lectures by invited keynote speakers. Tutorials on current issues and special sessions on new trends related to information technology and the software industry could be organized. This conference is considered as the official scientific conference for the Colleges of Computer and Information Society, stemming from the Association of Arab Universities.

## LOCATION

The emirate of Ajman became part of the United Arab Emirates in 1971. Situated midway along the Arabian Gulf coast of the UAE, it has a gorgeous white sandy beach stretching for over 10 miles. Located just 23 miles north of Dubai, Ajman is surrounded by its larger neighbour, Sharjah. Ajman has an attractive white sand beach and plenty of sunshine, making it a popular winter destination for sun seekers. It offers many watersports activities including snorkelling, diving and fishing. The emirate has some historical and architectural attractions including the souk, Al Nuaimia Mosque and the historic downtown area and along the creek. The Ajman Museum offers insight into the area's history and cultural development while shopping can be enjoyed in the Nour Al Kawthar Mall.
